

Berke Küçük

Jr. Web & Mobile Developer

Computer Engineering graduate. Finished my long term Web Developer Internship at Imona Technologies and I worked as a software intern at Bizmed for 2 months. I want to work on Mobile and Web programming. In addition to the C++, SQL and Java trainings given by my school, I am currently taking Bahçeşehir Üniversitesi Wissen Akademie Web & Mobil Fullstack Course and looking for a long-term work experience to consolidate this education and knowledge I have received together with the internship.
